

Acts 29 David

In the land of Georgia there was a man named David, filled with the Holy Spirit and faith. Through him Jesus was glorified. His faith was steady, unyielding against evil desires of the enemy. His faith was like a sturdy oak tree planted in a forest near a stream. His roots in Christ went deep and would keep him upright in a storm. Others would seek him out to understand why and how he could be so steady when seemingly the world was on fire all around them.

He didn't start out like that. He developed his root system over years of trials and growing in the love of Christ and helped by other believers. As he developed community with other like-minded men he became to grow more in his faith and then began to share it more with others. In one instance he had a position of standing in a corporation that was suddenly and unjustly taken from him. Even though he cried out to the Lord continually he struggled to see where the Lord was taking him. Eventually, after a long trial, the Lord brought him to a great position in a much better company where the talents the Lord gave him were much in need. From this David's faith grew much stronger as the Lord showed him how much He cares for him. It gave him a testimony that he could share with others to build their faith.

When his children were grown David became an EPIC disciple where he developed strong community with mighty men of God. He was able to develop skills in speaking words of encouragement and prophecy. He also strengthened his level of discernment through daily seeking the Holy Spirit.

Later, David was able to lead other EPIC disciples and train them to lead others as well. He grew in intimacy with the Lord and was able to hear clear direction from the Holy Spirit as it applied to the other disciples around him. Many chains were broken, marriages were restored and lives were changed.

David was married to Judy, a strong woman of God. Judy was a well-known prayer warrior and a mighty servant of God. As their faith grew the Lord blessed their marriage to greater and greater heights, thereby allowing them to pour into others to help them develop stronger marriages. They let the Holy Spirit lead them to couples in need and then guide them in the way to help the couples. Judy joined an EPIC disciple group for women which helped propel their ministry to couples in need.
